## PROFILE

A university student who has finished studying at ACG Strathallan with many academic achievements and is now studying engineering at University of Auckland. I possess strong skills relating to IT and tech and furthermore great communication skills with fluency in English and Punjabi. I have a love for tech and tech related products and am willing to learn more to develop my skills. I am determined to study Computer Systems Engineering next year.

## EDUCATION

### **Auckland University | Auckland, New Zealand**

**Feb 2024 – Present**

*Course: Computer Systems Engineering*

### **ACG Strathallan | Auckland, New Zealand**

Year 11

*Feb 2020 – Nov 2021*

*Subjects: IG Chemistry(C), IG Physics(C), IG Art(B), IG Maths(C), IG English(D)*

## EMPLOYMENT

### **McDonalds | Auckland, New Zealand**

**July 2021 – Present**

*Crew Member – Kitchen, Maintenance*

- As a maintenance member, I was required to keep the kitchen and front shelves always stocked, most importantly rush hour, and was given responsibility of putting away all the stock delivery that came. When I worked in the kitchen, I am given the responsibility of running the line or cooking the meats and keeping the meats always stocked.
- I have developed my communication and social skills and have learnt how to acquire new skills quickly and efficiently.

### **Rebel Sports | Pukekohe, New Zealand**

**July 2024 – Present**

*Staff Member – Front Counter*

- I have been trained in assisting customers with checking out and helping them navigate through the store locate their desired item.

### **Franklin Motors | Pukekohe, New Zealand**

**Dec – Jan | 2020 - Present**

*Apprentice*

- While working at Franklin Motors, I was helping with fixing and repairing cars while also attending customers in the office and helping them to find what they were looking for. I was also helping to take stock and organize the bookings for the jobs.

## ACHIEVEMENTS

- I have been awarded with the principals award many times throughout my school years.

## ADDITIONAL SKILLS

**Languages:** English (*Fluent*), Punjabi (*Limited*), Hindi (*Limited*)

**Coding:** Have been learning Python for 1 ½ years and have started learning C#

**Photo Editing:** I have learned how to use photoshop to create interesting posters and images.

**Video Editing:** I self-taught myself how to edit videos and make interesting and eye-catching montages.

## HOBBIES & INTERESTS

**Guitar:** I have been playing guitar for the past year consistently and achieved many A's in year 10 music due to my previous guitar skills.

**Basketball (Most sports):** I have played basketball since year 7 and have developed my skills very far but I also have learned many other sports growing up like volleyball and cricket.

**Coding:** I have been coding for a while now and have learnt how to create some useful scripts but am still developing my skills with python.

**PC Building:** I have been interested in building PCs for many years now and have built two for myself and have assisted my friends and family in building and setting up their own personal PC's. But along with this I am also the one to setup anything tech related whether it be setting up the tv or the WIFI for the house.
